Telescopic Banner _ Assembly instruction

1_ Place the telescopic support base flat on the floor, fill it with water or sand and seal the filling hole with the provided cap.

2_ Pull the telescopic pole out of its bag.

3_ Release the 4 support brackets on the pole from their hooks.

4_ Insert the telescopic pole into the hole of the base.

5_ Insert the 4 support brackets through the 4 angles of the support base.

6_ Attach the 4 support brackets with the provided hooks.

7_ Attach the horizontal bracket to the vertical pole top with the provided screw.

8_ Attach the short side of the flag to the 5 hooks of the pole.

9_ Pull the structure that is inside the external pole out until it clicks

10_ Attach the flag side edge to the hooks of the inside telescopic structure.

11_ Pull all of the inside poles of the telescopic pole out one by one until all sections are fully extended and the flag is fully exposed.

12_ Pull the bottom hook of the flag as far down as possible.

13_ Extend the flag and fix the bottom hook with the fixing ring, avoiding the hook sliding upwards.

Description

Non tearing knitted banner. It mounts easily and you can fix it where you want thanks to the metal rings and the double reinforcement sewing. It is ideal to build a reference and pulling point for each occasion. It identifies the presence of the brand creating an immediate recognizing virtual space.
